

My name is Jean Brenner. I have been at Holy Family School for one year. My husband and I have 5 children and 5 grandchildren. After working for the South Bend Community School Corporation for 27 years in the Title One and Special Education Departments I decided to retire. When the opportunity to be the Resource person at Holy Family was offered to me I was very excited. I believe everyone learns in a different way, children as well as adults. My job is to help find a learning style that benefits the student. Some may need a quiet place to work, a small group setting or extended time to learn. Others might need adjusted assignments or a new strategy to understand a particular task. I try to provide help in these areas. Every child can be successful given the right strategy and learning environment.
